-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 112***

1. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 contradicts the phrase "two ends of the vamp are bonded to a bottom surface of the sole" in claim 1 from which this claim depends rendering the claim vague and indefinite.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 2, 5, and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Prepodnik (5606807) or Abbott (2614341) further in view of Henderson (1544578).

Either Prepodnik or Abbott shows a slipper comprising a sole (12 or S) and vamp (64 or C) substantially as claimed except for the exact materials for the sole and vamp. Henderson teaches the use of a paper material which forms top and bottom wales (as shown in figures 3 and 4) for a sole and vamp of a slipper. It would have been obvious to use a paper material as taught by Henderson for the vamp and sole materials in the slipper of either Prepodnik or Abbott to provide good grip and prevent slipping (see Henderson lines 76-86).

Art Unit: 3728

4. Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied to claims 1, 2, 5, and 6 above, and further in view of Flautt.

Either Prepodnik or Abbott as modified above shows a slipper substantially as claimed except for the edges of the vamp. Flautt teaches forming edges of a vamp in a wave like shape (see figures 1 and 2). It would have been obvious to wave the edges of the vamp as taught and shown by Flautt in the slipper of either Prepodnik or Abbott as modified above to provide a fashionable look and comfort to the slipper.

1. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
